MARWAN TAMER SAYED

marwantamer004@gmail.com | 01553278930 | LinkedIn | GitHub | Cairo, Egypt

Aspiring Data Scientist and final-year Computer Science student at Cairo University with experience in Python, machine learning, and statistical analysis. Skilled in data preprocessing, feature engineering, and model development using pandas and scikit-learn. Experienced in building RAG systems and exploring Agentic AI workflows with LLMs. Proficient in data visualization and deploying solutions using FastAPI and Docker.

Experience

Machine Learning Trainee | Digital Egypt Pioneers Initiative — Nov 2025 – present
- Trained in data science, machine learning, and AI through hands-on projects
- Developed ML solutions using Python, including data preprocessing, feature engineering, and model evaluation
- Explored LLM applications, including basic RAG pipelines and AI-driven workflows

Advanced Data Analytics Trainee | NTI/ITIDA — Jun 2025 – Jul 2025
- Completed 120-hour training in Python, ML, and data visualization
- Applied data-driven insights to solve practical problems

AI Committee Member | DSC, Cairo University — Nov 2025 – present
- Contribute to AI workshops and technical initiatives
- Collaborate on projects to enhance ML and problem-solving skills

Education

Bachelor of Computer Science | Cairo University – Faculty of Computers and Artificial Intelligence
- GPA: 3.15 / 4.00

Projects

AI Support Ticket Assistant | Project — May 2026
- Built an AI-powered customer support system to assist agents in analyzing and resolving support tickets, improving workflow efficiency by ~40% and reducing manual handling time
- Developed a DistilBERT-based text classification model achieving ~90%+ accuracy for automatic issue categorization across multiple support categories
- Designed an Agentic RAG pipeline using LangGraph and LLMs to generate context-aware solutions, improving response relevance and quality by ~30–35%
- Implemented a hybrid search retriever combining semantic (vector-based) and keyword search, increasing retrieval precision and reducing irrelevant results by ~30%
- Deployed the full application using Streamlit, enabling real-time predictions, confidence scores, and AI-assisted resolution support with an interactive user interface

Obesity Levels Analysis & Prediction | Project — Aug 2025
- Developed an end-to-end ML system for predicting obesity categories using EDA, preprocessing, and an optimized SVM model
- Built and deployed a FastAPI backend with a real-time prediction endpoint, containerized using Docker

Certifications

AI Data Science Diploma — Jul 2024 – Mar 2025
- Completed an intensive, industry-oriented diploma covering data analysis, machine learning, and applied artificial intelligence
- Gained hands-on experience in data preprocessing, EDA, feature engineering, supervised learning, and model evaluation
- Applied Python, NumPy, pandas, scikit-learn, and visualization tools to solve real-world data science problems
- Achieved Excellent overall performance with a 92% final evaluation (Distinction) and 4.5/5 rating

Skills

Python - Beginner | **C++** - Beginner | **C** - Beginner | **Java** - Beginner | **HTML** - Beginner | **CSS** - Beginner | **JavaScript** - Beginner | **Machine learning** - Beginner | **Feature engineering** - Beginner | **Model evaluation** - Beginner | **Statistical analysis** - Beginner | **Data wrangling** - Beginner | **Exploratory data analysis (EDA)** - Beginner | **Data visualization** - Beginner | **pandas** - Beginner | **NumPy** - Beginner | **scikit-learn** - Beginner | **matplotlib** - Beginner | **seaborn** - Beginner | **LangChain** - Beginner | **LangGraph** - Beginner | **Retrieval-Augmented Generation (RAG) systems** - Beginner | **LLM applications** - Beginner | **Agentic AI workflows** - Beginner | **Microsoft SQL Server** - Beginner | **FastAPI** - Beginner | **Git** - Beginner | **GitHub** - Beginner | **Docker** - Beginner | **Analytical and problem-solving mindset** - Beginner | **Team collaboration** - Beginner | **Time management** - Beginner | **Task prioritization** - Beginner | **Technical communication** - Beginner | **Reporting** - Beginner | **Ability to work independently** - Beginner
